 MS

SUMMARY

Dedicated and results driven Mobile Application Developer with over 6+ years of experience in designing, developing, and deploying high-performance cross-platform and native mobile applications using Android (Kotlin/Java), Flutter and iOS technologies. Strong expertise in API integration, scalable architecture design, and Agile methodologies. Successfully developed and launched 15+ high-quality mobile applications with thousands of downloads, while leading development teams to accelerate delivery timelines and enhance code quality. Passionate about building scalable, user-centric solutions and seeking to contribute technical leadership and innovation as a Senior Mobile Developer in a forward-thinking organization.

EXPERIENCE

Sr Software Engineer

Nexintain Technologies Pvt Ltd

⌚ 04/2025 - 01/2026 📍 Noida, India

- Developed user interfaces and integrated Android, XML and RESTful APIs for applications on both Android and hybrid platforms
- Developed and maintained mobile applications using the Android SDK, Java, and Kotlin programming languages
- Developed end-to-end mobile applications, including back-end connectivity to web services and databases
- Optimized application performance by reducing UI rebuilds, improving rendering efficiency, and minimizing memory consumption.
- Used Architecture like clean and maintainable codebases following MVVM / Clean Architecture / SOLID principles.

Sr Mobile Application Developer

Trezi (Smartvizx Pvt Ltd)

⌚ 05/2023 - 02/2025 📍 Noida, India

- Engineered and maintained native and cross-platform mobile applications using Android, Kotlin, Java, MVVM, Flutter (Dart), ensuring high performance and seamless functionality across Android and iOS platforms.
- Architected complete application workflows, integrating secure RESTful APIs, web services, and local/remote databases for robust backend connectivity.
- Designed and implemented scalable, reusable, and responsive UI components following modern design principles and best coding practices.
- Optimized application performance, improved state management architecture, and enhanced user experience through clean code practices and modular development.

Senior Mobile Application Developer

Chetu

⌚ 05/2021 - 03/2023 📍 Noida, India

- Developed and tested Android applications for POS (Point of Sale) for Kiosk devices and mobile devices using Kotlin, Java, XML, and other related technologies
- Analyzed user requirements and designed system architecture for mobile applications
- Developed Android applications on multiple versions of the platform to ensure compatibility
- Architected clean and maintainable codebases following MVVM / Clean Architecture / SOLID principles.
- Implemented advanced state management solutions such as Bloc, Provider, Riverpod, and GetX based on project requirements.
- Integrated secure RESTful APIs, GraphQL services, and third-party SDKs including payment gateways, analytics, maps, and push notifications.
- Designed pixel-perfect, responsive UI aligned with Material and Cupertino guidelines to ensure consistent cross-platform user experience.
- Optimized app performance by reducing widget rebuilds, improving rendering efficiency, and minimizing memory consumption.

EXPERIENCE

Android Developer

Genmish India Pvt Ltd

⌚ 09/2020 - 05/2021 ⚽ Remote

Remote work

- Successfully developed and released Android applications on the Google Play Store
 - Responsible for the maintenance and improvement of existing Android applications
 - Utilized Java, XML, and Android Studio to develop Android applications
 - Developed a UI/UX design for a mobile application that was used by over 20,000 users
-

Android Developer

LeadingDots Solutions Pvt Ltd

⌚ 10/2019 - 08/2020 ⚽ Noida

- Utilized Java, XML, and Android Studio to develop Android applications
 - Android Android SDK Kotlin Java Clean Architecture Android Studio XML
 - Collaborated with a team of developers to create a multi-platform mobile application
 - Implemented RESTful APIs for mobile application development
 - Developed and tested Android applications for various screen sizes and devices
-

Android Developer

BringOn India Pvt Ltd

⌚ 11/2018 - 10/2019 ⚽ Noida

- Utilized Java, XML, and Android Studio to develop Android applications
 - Developed a highly functional Android application with a clean and intuitive interface
 - Collaborated with a team of developers to create a multi-platform mobile application
 - Implemented RESTful APIs for mobile application development
-

EDUCATION

Master in Computer Applications

Dr. A.P.J. Abdul Kalam Technical University

⌚ 08/2016 - 08/2018 ⚽ Lucknow

Bachelor in Computer Applications

Chaudhary Charan Singh University

⌚ 08/2013 - 08/2016

SKILLS

Android	Android SDK	Kotlin	Java	Clean Architecture	Android Studio	Flutter	Dart	HILT
Cross-Platform Development			MVVM	MVC	MVP	Android & iOS Development		
Responsive UI Development		Platform Channels		Material Design		Cupertino Widgets	Live Data	
Repository Pattern		SOLID Principles		Async Programming		App Performance Optimization		
Memory Management		Kotlin Coroutines		Design Patterns		In-App Purchases	Dependency Injection	
Bloc / Cubit	Payment Gateways		Google Play Billing		Bluetooth	Mobile Devices	Provider	
Riverpod	Realtime Database		Hive	Google Firebase		JSON	Unit Testing	Debugging
Unit Testing	WebSockets		Git	Play Store	Agile / Scrum	SQLite	CI	CD
Code Review	RESTful APIs		Crashlytics		Analytics	JIRA	Technical Leadership
